

PRODUCT SPECIFICATIONS

Controls	Remote control
Variable Flow Water Usage	5 - 80 gpm 1.2 - 18 m ³ /h
Projection	5 to 30 ft 1.5 to 5 m
Weight	25 lbs 11 kg
Flow Control Motor	120 V
Camlock Water Connection	2 in. (with swivel coupling)

GEYSER

The GEYSER is designed for complete ultra-high reach dust control. The GEYSER installation best operates together with the pump of any V-500 series dust control machine. The GEYSER atomizing nozzle is mounted on the stick of an excavator, catching airborne dust at the source. As material falls to the ground, ensuing dust particles are captured by the V-500 water cannon aimed at the landing zone.
